John Paul Olimpo

Junior Fullstack Developer

Santa Maria, Bulacan, Philippines | johnpaulolimpo7@gmail.com | +639917419030 | https://github.com/jp-o-git | https://www.linkedin.com/in/john-paul-olimpo-13a9621b8/ | myportfolio-two-lac-75.vercel.app

Summary

Results-driven Junior Fullstack Developer with hands-on experience building accessible, user-friendly web applications. Proficient in React, Next.js, and modern web technologies. Proven ability to deliver production-ready features, and collaborate effectively in agile environments.

Skills

Languages: TypeScript, JavaScript, Python
Frontend: React, Next.js, Vue.js, Tailwind CSS, HTML, CSS, React Query
Backend and data: FastAPI, REST APIs
Database & ORM: PostgreSQL, Supabase, Alembic
Automation: n8n, Zapier
Tools: Git, Jira, VS Code, PyCharm
Practices: Web accessibility (a11y), Agile Sprints, Version Control

Projects

TallyBook | React JS, FastAPI, SupaBase, Alembic | Automation (n8n) | https://tallybook-sigma.vercel.app | https://github.com/jp-o-git/tallybook

- Developed a full-stack inventory management application for small businesses to manage products, monitor stock level.
- Integrated a FastAPI backend with Supabase and deployed the application online.

Health Sphere Landing Page | Vue Js, SupaBase | https://github.com/jp-o-git/health-landingpage | https://health-landingpage-one.vercel.app

- Built a responsive healthcare landing page with Vue and Tailwind, featuring service sections, FAQs, and CTAs.
- Improved load performance with lazy-loaded images and custom typography and branding.

Experience

Junior Frontend Developer (Freelance, On-Call Developer) | Lion Sales Funnel (Remote) | Sep 2025 to Sep 2026

- Built landing pages and sales pages in React, Vue, and Kajabi.
- Managed multiple high-priority tickets in tight deadlines, demonstrating strong time management and delivery excellence.

Software Developer (Contract) | Ally Public Adjusting (Remote) | Jan 2026 to Aug 2026

- Developed and enhanced frontend features, UI components, and workflows based on design specifications.
- Fixed bugs in the document and text extraction pipeline of a claims platform, and built the database queries and frontend views that display the extracted data to users.

Internships

- Software Engineer Intern | Hooli Software | June to September, 2025: Improved web accessibility compliance, making the website more inclusive for diverse users
- Software Engineer Intern | Hooli Software | August to October, 2024: Implemented UI modifications and bug fixes using React and Tailwind CSS, ensuring pixel-perfect alignment with design specifications

Education

Bachelor of Science in Computer Engineering
Polytechnic University of the Philippines, Santa Maria Bulacan Campus
2020 to 2025
